Patent Mill Wheels.

Timbey's Patent
Two Vent Cast Iron Water Wheels
—for—
SAW MILLS,
Invented by T. R. Timbey of Cato N. Y.

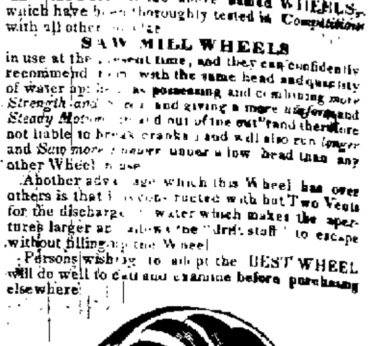
THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in Competition with all other [illegible]

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them with the same head and quantity of water [illegible] as possessing and combining more *Strength* and [illegible] and giving a more uniform and *Steady Motion* [illegible] and out of the [illegible] and therefore not liable to break cranks, and will also run longer and Saw more [illegible] under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the "drift stuff" to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere.



We would also call the attention of Mill Owners to

Valentine's Patent
Reversing Centrifugal Water Wheel,
—FOR—
"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now used.

As evidence of the merits of this Wheel, we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD, Esq., *Civil Engineer*,—Lowell, Mass. who is well known as one of the most Scientific and experienced practical Engineers in his country.

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending so far around the Wheel, that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel; so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and as much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it, providing the head rises in a freshet as fast as the back water. But a Wheel with the jets rightly guaged for a high head will not answer for a low one, and vice versa, for as the head increases, the width of the jets should be proportionably decreased, so that the water may not issue to waste, and not give its best effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels, and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, is less liable to need repairs, easily accessible when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop.—Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel."

ITHAMAR A. BEARD, *Civil Engineer.*"

⁂ All sizes of the above Wheels with all the LATEST and most IMPROVED patterns of

Mill Gearing, Machinery, &c.; Shingle, Clapboard, Sapping, Lath and Box Machines;

Steam Engines and Boilers,
PAPER MACHINERY,
manufactured and furnished, in the most favorable —terms.—

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients [illegible] medicine. With these, others of vegetable [illegible] are combined, designed to render them more active and consequently more immediately effective.

The Dock, or rather a species of it, now ranks as a [illegible], second to no one of the vegetable kingdom. With the aid of a distinguished chemist [illegible] the proprietor has consulted in the preparation [illegible] compound, he has succeeded in overcoming [illegible] of preserving the extract of the [illegible] considerable length of time.

[illegible] the proprietor has tested in his [illegible] efficacy of the principal substances of [illegible] compound and is perfectly satisfied that they [illegible] all the properties which have been ascribed [illegible] them. Recently he conceived the idea of uniting [illegible] which has resulted in the production of the [illegible] compound. In this the ingredients are found to act [illegible] harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been [illegible]. The extract [illegible] be refined [illegible] liable to decomposition, if procured [illegible] the root to the action of the [illegible] employed in extracting its virtues. [illegible] is permitted to be used in the [illegible] that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofula, Erysipelas, [illegible] affections, Eruptions, and Mercurial diseases. Also for the numerous [illegible] arising from sedentary employments, [illegible] of a harassing and fatiguing [illegible] application, exposures to extremes of [illegible] and [illegible] overtasking the physical powers, and other abuses of the constitution among which are Neuralgia, Piles, Affection of the Liver, [illegible] complaints and Dyspepsia or Indigestion. [illegible]

In diseases of warm climates, with which the proprietor became familiar in his [illegible] some years since, the [illegible] particularly efficacious [illegible] preventive.

This medicine has been for [illegible] in this city, where the proprietor [illegible] half a century of his professional [illegible] extensively prescribed by him [illegible] it is believed to be in favor with [illegible] in general, to whom [illegible]

The Great Remedy for Gonorrhea

GLEET, Stricture, and all analagous complaints, is DR. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union, during the last 40 years. His only reason for introducing the Paste in this public manner, is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D most solemnly affirms, that during his practice of forty years, this Paste has never, in one single instance, failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years, but after taking the Paste for a few days, the angry symptoms disappeared, and the patients were discharged, entirely cured.

If the unfortunate, instead of drugging themselves with quack medicines, would purchase only one box of the Arabian Paste, we should not see so many emaciated [illegible] as we do at the present time.

☞ In case this Paste should fail to effect a cure in the shortest possible time, the [illegible] paid for it will be given the purchaser on returning the empty boxes.

For sale only by the original inventor and sole proprietor, [illegible] Office, No. 55 Union street, Boston, at $1 per box where he can be confidentially consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

Important Letter.

MESSRS. CURTIS & SMITH.

Dear Sirs:—I herewith enclose you a few lines relative to your "Down's Elixer," which for the benefit of the suffering, if you think worthy, you are at liberty to make public. About a year and a half ago my mother became sick, so that in a short time we began greatly to fear for her life. Her symptoms were, bad cough, pain in the side and stomach, night sweats, and other premonitory signs of pulmonary consumption. We consulted our best physicians, who gave her little or no relief, and finally pronounced her case incurable consumption. She continued to become weaker, and the symptoms more confirmed.

About this time, at the suggestion of a friend, we concluded to try Downs' Elixer. Having procured a bottle from your agent (S. R. Byram of Eastport) she commenced taking it. At first it seemed only to mitigate the severity of the symptoms, but in a short time her health began evidently to improve. It cured her cough, removed her night sweats, and greatly improved the tone of the whole system.— After having continued its use most of the time for nearly a year, she was herself cured. She is now able to go about the house, and superintend affairs as usual. Under God we believe that to Downs' Elixer, alone, she owes the preservation of her life and the restoration of former strength and energy.

We have also used it in our family in other cases for which it is recommended in the pamphlets, with universal success. Yours truly,

[Signed] SWAIN P. NORDSTROM.

The above is only one of a thousand similar letters which we are constantly receiving, from all parts of the country, almost daily.

DOWNS' ELIXER is unquestionably the best article known for the cure of *COUGHS, COLDS* and *CONSUMPTION*. It is more certain to give relief in all cases of *ASTHMA*—often a perfect cure—than any thing hitherto offered to the public.

In cases of *WHOOPING COUGH* it needs only to be tried to give it preference over all other remedies. It immediately breaks up the cough, and renders a mere plaything what is otherwise a scourge and terror. For the *CROUP* it is a positive cure. We speak with confidence, for it has never failed, and we believe never will, when used according to directions.

Pamphlets, giving a full description, to be had of agents in almost every town and village in the country, and of the following, who are prepared to sell at wholesale or retail.

NEVER DESPAIR OF LIFE!!

KELLEY & CO'S
HIGHLY CONCENTRATED
SARSAPARILLA!

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!!

10,000 CASES

OF SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS, of which *proof* can be furnished. This is the only medicine known to cure these diseases!

THIS Sarsaparilla will bear TWO QUARTS OF WATER to 1 Bottle, and then be far superior to any in use. It is put into the Bottles its FULL STRENGTH and power, without reducing it, and this is done for the special benefit of those who use it, as it is objected to by all other Sarsaparillas that they are Weak, Cloudy, Adulterated, Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger,

than any other, and Six Times the [illegible], and Cheaper than all others. THIS Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world; and CURES all the Sickness, KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA!!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says "that there is no medicine in which he has so much confidence for **Diseases of the Lungs.**" Some will marvel at this REMARKABLE Cure, but thousands are knowing to the fact. This INFALLIBLE Sarsaparilla is also doing wonders to the great [illegible] And says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, "that there is no other medicine which is CAPABLE of doing so MUCH GOOD, and yet so LITTLE [illegible] of doing injury." What distinguished compliments are these? Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails. [illegible]

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure, Rich, Healthy, Quick, Free, Nutritious. [illegible] all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves unstrung, [illegible] stores Health, Strength and Vigor, to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public must award it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not temper with the patient or prolong his sufferings. But it first attacks the disease and stops it, then eradicates it, then brings up the flesh and strength, [illegible] perfectly pure Blood, so the the cure is [illegible], thorough and permanent. Others only smooth it back on the disease, but this EXTIRPATES it wholly from the system—[illegible] others endanger it. The whole Body is made so healthy by the use of this GIANT of HEALTH, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that **Medical Colleges, Professors** and Physicians always prefer it after the sake of trial upon it. Try it, all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried.

It is for you especially, that this Sarsaparilla is made, as the "HEALING ART" has been taxed to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured before [illegible] which are [illegible] so invariably and entirely fail. But this Sarsaparilla has the SPECIAL [illegible] to cure every Disease [illegible] It regulates these actions—and roots the irregularities of the System—restores strength to every part—beautifies the complexion —imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, &c. &c.

WHIG NOMINATIONS.

FOR PRESIDENT,

GEN. ZACHARY TAYLOR.

FOR VICE PRESIDENT

MILLARD FILLMORE.

FOR GOVERNOR,

ELIJAH L. HAMLIN.

Gen Taylor's opinion on the subject of Slavery

Col John Johnson of Upper Piqua, Ohio, who was selected by the Whigs of Miami, as their delegate to the Convention—a staunch undoubted Whig—who has, in a long life devoted to the cause, done it great service—a delegate to Harrisburg in 1839 and to Baltimore in 1844, and who has known General Taylor long and intimately, writes, in a public letter that he is all we could desire upon the subject of human slavery. He writes that he has heard him declare, with much force, that he regarded slavery as a great evil to the country, and expressed a strong hope that the time might arrive when we could get rid of it altogether and Col Johnson declares his earnest conviction that General Taylor is the last man to countenance its being extended to any new territory that may be brought into the Union. In another part of this same letter Col Johnson says, speaking, be it remembered, from his own personal knowledge, and after an acquaintance of over thirty years:

"There are many strong reasons for preferring Gen. Taylor at this time for the Presidency. He is of mature years and in the enjoyment of excellent health, a strong and vigorous mind, largely endowed with good common sense, a kind and affectionate husband, father, friend, and neighbor—the idol of his subordinates in the service, beloved by all who have ever known him. I believe his private character to be without reproach, and all that can be said, pro or con, it is no bad recommendation for a public trust, that a man in all the relations of private life has fulfilled the law of love, done justly, loved mercy, and walked humbly.

A popularity thus acquired cannot be easily set aside. The affections of the people will follow and cling to such a man, and who can blame them for so doing? They loved Washington for similar traits of character, and although I should be loth to compare any mortal man throughout to him, still I think there is a strong resemblance in their private and public lives.

I say in the sincerity of my heart to all our friends in and out of the convention, if you want to succeed in the approaching contest, take Taylor for your standard bearer. He is emphatically the man for the times and the people. If elected he will go into power untrammelled—I verily believe that among all the great and good men that have been named for the Presidency, he can do more to unite and harmonize the people of the various sections of the Union than any of them."

Let it be remembered these are not the interested adulations of a mere adventurer, or the exuberance of unreflecting youth, but the matured and sober convictions of age and experience obtained by long acquaintance, and which derive additional weight from the known political integrity and the tried services, and the patriotic devotion to Whig principles of the writer.

☞ The editor of the Portland Argus while on his way home from the Baltimore Convention, saw sufficient indications, as he thought, and as any body of common sense would have thought, to lead him to conclude that the vote of New York State would be lost to Gen Cass. He wrote his opinion to his paper and it was published. We noticed it as among the signs of the times. The Argus editor has since his return home, expressed the very strange opinion that Gen Cass will carry New York State and he wishes us to note the fact. We do not wish to hurt the reputation of the editor of the Argus, but such a change of opinion, under existing facts, is so very strange and out of place, that we almost incline to the opinion that it is our duty to save the character of the Argus, and say nothing about it. There certainly appears now greater probability of the Barnburners carrying New York State for their candidate than for the Old Hunkers to succeed—that is—in the split in the party, the Barnburners have much the largest portion of the Loco party—and they are not the kind of men likely to fall back upon the ground they have once left in scorn, to meet those who affect to scorn, and who have injured and betrayed them. But the Argus has expressed a counter opinion, and although the reasons are all in favor of its first opinion, yet, as we are particularly desired to notice it, we must do so even if the reputation of the Argus is ruined thereby. Be it known then, that the Argus says it counts upon New York for Gen Cass!! If all its counting is of this character, it will take a long while to count him into the presidential chair.

A School Compendium of Natural and experimental Philosophy.

Mr Bugbee has laid upon our table a text book for schools and Academies, with the above title by Richard Green Parker A M, an eminent teacher in Boston. It is a school book well adapted to the times. Philosophical apparatus is making its appearance in many of the common schools in our cities and large towns and this work is adapted to the present state of natural science, and has been prepared with a strict attention to the wants of students and to make it eminently useful as a book for study.

There is an earnest attention not only to the facts but to the philosophy of the several sciences and the work is illustrated by a great variety of drawings. This work in its original form has been in use for some years but it has now been improved so as to adapt it to the new state of affairs and to the improved state of science. It is published by A. S. Barnes & Co New York.

☞ It affords us great satisfaction to find that every Whig with whom we meet is ready whatever have been his previous preferences, to give a cheerful and hearty support Gen. Taylor and Mr Fillmore. These names excite, in all quarters, the most enthusiastic hope of success.

☞ We learn that the roof of the dwelling house of Valentine Page Esq in Orono took fire yesterday in the high wind. Several holes were burnt in the roof but the fire was extinguished by the exertions of the neighbors. The barn also took fire but was saved by well directed efforts.

A Lesson from History.

The Portland Advertiser we are happy to see, comes in very gracefully to the support of the nominees of the Whig National Convention. This is right. Every whig and every whig press should now give earnest and enthusiastic support to the nomination of Gen Taylor who, as Col Johnson and other of his intimate friends say, is more like Washington than any other man in the country. It is a pleasure to offer to the public the claims of one so worthy and yet so modest—whose head and heart are so devoted to the country and so little moved by merely personal ambition.

The Advertiser thus alludes to the interesting historical incident which first brought out the character and virtues of Gen. Taylor before the country and in which the finger of heaven seems to be visible:—

"The fact is, that Mr Polk picked a quarrel with Mexico thinking to surround his Administration with a blaze of glory which should place him or some successor he might choose in the Presidential chair for the next four years. Mr Cass too caught the same idea. He has been the Sempronius of the Senate. His voice has been for war. He was eager to fight for Oregon and would never consent to a peace with Mexico until we had indemnity for the past and security for the future, which when properly construed signified all Mexico. Mr Polk finding he could not once again himself select Mr Cass as the war hawk most likely to embody his feeling of glory. But mark how the wicked are disappointed—how the very means to which they resort to accomplish their ends are turned against them. It wouldn't do to let Gen Scott take command of the army at first for he had been talked of for the Presidency. Mr Polk therefore held him back, got up a fire in his rear and selected a plain old rough and ready officer to lead our forces, of whom he thought there was no sort of danger as a rival for the Presidency. But he little knew the character of the man thus selected. He little supposed that in a few short months under circumstances of the most trying emergency this plain unsophisticated citizen would develope traits of character and elements of popularity which would endear him to the mass of the American people even like unto Washington the father of his country and eventually carry him in triumph into the Presidential chair, completely routing and dispersing his corrupt Administration and the party sustaining it. It is true it may be replied that he has had little experience as a statesman. Neither had Washington. But the father of his country, like Taylor, was a man of calm cool deliberation and judgment, of good natural common sense which never forsook but always served him under all circumstances. He called around him too, as will Taylor some of the strongest, ablest and most patriotic men of the nation for his Cabinet. Gen Taylor is also clearly and unequivocally committed against the Veto Power which has worked so much mischief in times past."

COURT COURIER

District Court.

The court adjourned finally on Saturday after a session of three weeks, Allen Judge, presiding. During the term the following criminal causes were disposed of:

George Baxton was tried and convicted on a charge of larceny from a dwelling house of Alexander Sharpe at North Bangor and sentenced to one year's imprisonment in State Prison. J F R[illegible] for prisoner.

James Brown alias *Joseph W Capps* plead guilty to two indictments for shop breaking and larceny, and was sentenced to imprisonment in House of Correction for one year—[illegible] for prisoner.

Wm H Lunt was tried and acquitted on indictment for entering house and larceny. [illegible] S Kimball, J F R[illegible] for prisoner.

Laura Van Holman pleaded guilty to charge of [illegible], and sentenced to 60 days imprisonment in House of Correction.

Edward Gibson was tried and convicted of larceny and sentenced to three months imprisonment in House of Correction. J E Godfrey for prisoner.

The City of Bangor was also tried on indictment for carelessly leaving the reservoir in Market Square in a dangerous condition while building whereby Nathan C W[illegible], in the night time, while walking along the street was precipitated into it thereby causing his death. The action was prosecuted for the benefit of the heirs of the deceased. A former indictment was found against the city for the same cause and a trial had upon it about a year since and a verdict of guilty returned. That verdict the Supreme Court set aside and quashed the indictment. A new bill was found at the present term which was tried as above and a verdict of guilty again found. The case goes up on exceptions. Waterhouse for government—Ingersoll for [illegible] and White. Peters, City Solicitor for respondent.

The Schooner Brandywine Sunk.

We learn that the schooner Brandywine Capt Paul of this port was yesterday run into by the steamer Penobscot at Bucksport and was so much injured as to sink immediately. She was full of goods for persons in this city. The Penobscot proceeded on her trip to Boston. It is also reported that the Brandywine was struck by the steamer Senator, which left here in the morning.

FIRST LESSONS IN NATURAL PHILOSOPHY

We have received from Mr Bugbee a work with the above title designed to teach the elements of the science. It is an abridgement of an excellent School Compendium of Natural and Experimental Philosophy by Richard Green Parker, Principal of the Johnson Grammar School, Boston.

It is a well printed and well illustrated work and is happily calculated to unfold many of the great laws which govern the universe to the inquisitive and expanding minds of youth. It will make a good text book of elementary instruction in common schools. It is published by A. S. Barnes & Co., New York.

☞ Mr Bugbee has at his bookstore a little work for the use of schools entitled The Arithmetical Table Book or the method of teaching the combinations of figures by sight, By Charles Davies and published by A. S. Barnes & Co., New York. It is an ingenious and interesting work.

☞ The Weather yesterday was unusually cold and disagreeable, rendering a fire and winter clothing almost as necessary as winter.

☞ W W Seaton has been re-elected Mayor of the City of Washington.

☞ A correspondent of the Buffalo Express, writing from Michigan, says that General Taylor can carry that State against Cass.

'Do you go for principles not men?' 'Yes, I do.' 'Well what are your principles?' 'Always to vote for our candidate.'

'What are fine arts, husband?'

'Making yokes for the Industrious fleas, I suppose. I do not know of any finer art than that, but screwing up pipe heads comes next to it.'

'Freights are uncommonly low,' as the fellow said when he got so much aboard that he pitched into the gutter.

Flight of the Emperor of Austria.

On the evening of the 17th at six P M the Emperor and Empress quitted Vienna in an open carriage. They were loudly cheered by the populace, and it was generally supposed that their Majesties were merely taking a drive. An hour later the imperial travelling carriage and at nine o'clock several other six horse imperial carriages followed. [illegible] that the imperial family had suddenly quitted the city. Early next morning the fact was made known by a proclamation of the ministry of Pillersdorf who continue in office ad interim at the earnest invitation of the Emperor and the University.

The following is the proclamation issued by the Ministers:

"This evening at 9 o'clock a verbal communication was unexpectedly received by the Ministers that his Majesty the Emperor accompanied by the Empress and his Highness the Archduke Francis Charles and Consort and the three princes, had for the sake of his health quitted the imperial city and taken the route to Innspruck. The undersigned Ministers, who are unacquainted with the origin and other circumstances of this journey feel themselves called upon to make known the fact to the inhabitants of the capital. The ministers deemed it their first duty to send off during the night by the commandant of the national guard, Count Hoyos, a person worthy of all confidence, to urge it entreaty on his Majesty the Emperor either to return immediately or by an open statement of the circumstances which render it impossible to quiet his loving subjects. A similar urgent request has been forwarded to the Archduke through the president Count Welczek. The council of Ministers at this momentous crisis deems it a sacred duty to dedicate its undivided care and attention to the weal of the country, and upon its own responsibility so to act as circumstances may demand. The co-operation of their fellow burghers and all right minded men will enable them to maintain peace and order and to lay all apprehensions. Whatever information the Ministers may receive on the subject will instantly be faithfully and circumstantially made known, and so soon as they shall receive any communication it shall be published instanter.

The Ministers pro tem:
Pillersdorf,
Kraus,
Doblhoff,
Sommaruga,
Latour,
Baumgartner."

The intelligence that the Emperor had quitted the city had produced the greatest excitement; the inhabitants are unanimously for the Emperor and the maintenance of the constitutional monarchy.—His Majesty has never been famed for great parts or powers or far sightedness but upon this occasion his ordinary coercion and presence of mind seem to have quite forsaken him.

A letter from a very intelligent correspondent under date of May 19 states that Vienna is in a most deplorable state of anarchy. The Government may be said to exist no longer, ministers do not even attempt the reestablishment of authority. Every night emeutes take place in the public streets, the houses of unpopular persons have been demolished and in some cases lives are lost. These rows have now become a pastime, they are announced a day beforehand and those interested are invited to be present. The national guard always muster in great force, fully armed and accoutred at such a scene, but they come merely to protect the rioters from interruption and not to prevent the work of destruction.

There is not a single soldier in Vienna with the exception of a few sentinels on guard at the palace and at some of the gates. The actual seat of Government at present is the university. All real power is in the hands of the students. They are looked up to by the national guard, who in turn are looked up to by the people. The students have all the bold bravery of boyhood, the national guards are, as far as I can see, awkward poltroons and the mass of the people are docile instruments in the hands of their new masters.

The university has assumed the appearance of a barracks, the class rooms have been converted into guard houses and the other apartments in the building into bureaux where the administration of the city is carried on. The capital of the empire of Austria is in the hands of a hundred or two boys from 15 to 20 years of age. One meets these little fellows every where, in the theatres, the cafes and the churches with long swords clanging at their sides and plumed hats upon their heads. As they swagger with a graceful nonchalance through the streets and public walks the biggest men and the proudest nobles make way for them. I have heard the opinion of some of the principal commercial men here of the finances of the country who all say that a national bankruptcy is inevitable. The nobility are leaving Vienna for their country seats. The city is evidently on the eve of a great convulsion.

Mr Mays (one of the committee) stated that he desired an opportunity to present a minority report. The resolves were then laid on the table, and ordered to be printed.

They are as follows:

Resolves in relation to the extension of slavery in newly acquired territory.

Resolved, That Maine duly appreciates the concessions and compromises which led to the adoption and establishment of the constitution of the United States, and she will cheerfully and honestly abide by the letter and spirit of them,—at the same time she will firmly resist all demands for their enlargement or extension.

Resolved, That the sentiment of this State is profound, sincere and almost universal, that the influence of slavery upon productive energy is like the blight of mildew, that it is debasing and degrading in its influence upon free labor, that it is a moral and social evil, that it does violence to the rights of man as a rational, thinking and accountable being; influenced by these and other important considerations this State will firmly oppose the introduction of slavery into any territory acquired as an indemnity for claims upon Mexico.

Resolved, That in the acquisition of any free territory, whether by treaty, purchase, conquest or otherwise, we deem it the duty of the general government to extend over the same the principle of the ordinance of 1787.

The best way to annihilate the dogs, will be to give each one a dose through the muzzle of a gun.—Lynn News.

☞ There has been another piece of scene enacted in the Senate, between Senator Foote of Mississippi and Senator Hale of New Hampshire in which Mr Hale as usual, came off decidedly with flying colors. It is thus described by the Washington correspondent of the N. York Tribune who writes under date of Thursday last:

"The subject under consideration was the Oregon bill. Speeches were made by Messrs Butler, Bagby, Westcott, Bright, Hale, Foote &c.

Mr Foote denounced the Wilmot Proviso principle. He said this was not the time to discuss it, it would divide the country and it might even defeat the great ticket which had been nominated at Baltimore. This announcement of course, was calculated to send a thrill of terror to the hearts of the Democracy.

Mr Hale closed the debate in a very calm dignified and powerful speech. He said we were now in the midst of important scenes—Slavery had been acknowledged as a curse even by Southern men. Territories which we are now acquiring have taken us at our word, and have started in their path by avoiding this blighting curse. Shall we, then, as we take them, force on to them this blight in the blood and fasten upon them the curse?

In the midst of his speech Mr Foote interrupted him and went on to denounce the course of Mr Hale in the Senate. He said the Senator from New Hampshire had attacked the Constitution of the Union and said he was in favor of a dissolution of the Union.

Mr Hale replied that he had said no such thing. He had said that if the Union depended only on slavery the sooner it was dissolved the better. If the object of the Union was not Liberty but Slavery, he did not care how soon it was crushed. As Mr Foote had said that any one contended that this was the object of the Union, of course he had expressed no wish for its dissolution.

Mr Foote then proceeded to rebuke Mr Hale for making windy declamations in the Senate and gave him a severe lecture on good breeding and decorum. That a man who had [illegible] of Senatorial decorum [illegible] any Senator in the body, should set himself up as the advocate of Senatorial decorum, was certainly [illegible] the eleventh Senator from Mississippi presented.

Mr Hale replied with dignity but with cutting sarcasm. He said he was willing to receive advice from any source. He did not object to receive such lessons on Senatorial decorum from the Senator from Mississippi. He could not but think, however, that the Senator, who loved to quote poetry, might very well apply to himself the language of Burns.—When he next essays to reprove any Senator for windy declamation and pomposity he might well exclaim—

"O wad some power the giftie gie us
To see oursels as ithers see us."

This reply spoken with such dignity and appropriateness set the whole Senate, galleries and all, in a roar of laughter.

Mr Foote felt the sarcasm very strongly and [illegible] than ever did before. Southerners and all acknowledged that Mr Foote had got a deserved castigation, which he will not soon forget. He attempted to raise a laugh in his favor, but it was no go."

'[illegible] do you know any [illegible]?'
'Yes, I know two.'
'What are they, Sam?'
'[illegible] Old Hundred and t'other aint.'

By grasping [illegible] we have reached eternity, as the Judge told the man who was sentenced to be hung for stealing a clock.

HO HO YOU ARE GETTING BALD ARE YOU? Well, that is a misfortune and not a crime but it is made a crime when so fine an opportunity offers to restore your hair by a faithful and liberal use of Jayne's Hair Tonic, it is but little short of a crime. This valuable preparation excites the scalp to a new and healthy action, cleanses it from scurf and dandruff, prevents the hair from falling off, cures those scalp diseases which are so common in the head, and in a majority of cases produces a fine growth of new hair. It also gives the hair a rich and most beautiful appearance, unequalled by any thing of the kind.

"IS THIS MEDICINE?"

We exclaimed the other day on tasting some of Jayne's Tonic Vermifuge. It certainly has none of that nauseous flavor which one associates with the idea of physic.—Children consider it quite a treat, and in taking it their palates are gratified and their health restored at the same time. Jayne's Tonic Vermifuge not only destroys worms but carries off the mucus in which they are imbedded and effects a radical and permanent cure. Every mother knows the prominent symptoms of worms such as voracity, leanness, foul breath, grinding of the teeth during sleep, paleness of the lips, itching of the nose, &c but there is other indications not so generally recognized.—A dry cough, dull eyes, enlargement of the abdomen and many other symptoms common to other diseases, frequently denote the presence of worms. If these exist, or is suspected, the Vermifuge should be administered, because it can do no harm in any case, and may do incalculable good.

Prepared only by Dr D Jayne, Philadelphia, and sold on agency by G W LADD and J S INGRAHAM, Bangor.

For sale in Oldtown, by B & J F RICHARDSON.

COMPLAINTS OF THE BOWELS, as costiveness, headache, giddiness, pain in the side and breast, nausea and unpleasant variable appetite, yellow or swarthy complexion, &c are the usual symptoms of Liver complaint.

Wright's Indian Vegetable Pills are always certain to remove the above complaints, because they purge from the body those morbid humors which are the cause, not only of all disorders of the liver but of every malady incident to man. A single 25 cent box will in all cases give relief and perseverance will most assuredly drive every particle of disease from the body.

BEWARE OF COUNTERFEITS AND IMPOSTORS. Remember the the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

A VALUABLE TESTIMONY.

We like at all times to give credit where credit is due, and if at the same time we can relieve the distresses we are doubly gratified. We therefore give the following well merited testimony as to the beneficial effects of Wistar's Balsam of Wild Cherry, by the editor of the Columbia South Carolinian who speaks from personal experience.—[Old Dominion, Portsmouth Va.]

WISTAR'S BALSAM OF WILD CHERRY

We seldom resort to patent medicines, having a great respect for the skill of the regular profession, but chance threw into our way the above named medicine, and [illegible] soon after the close of the last session of the Legislature, when our lungs were almost diseased by the highly rarified air of our stove warmed State house. The almost immediately relieved us of a most harassing cough, which threatened our health in a serious degree. We [illegible] indebted to it for [illegible] pounds of [illegible] weight—which addition does F L T cannot be forgotten.

Chloroform Toothache Drops.

It is well known that "CHLOROFORM" has superseded (in a great measure) the use of Ether as an allayer of pain and is now used by the best Surgeons and Dentists in preference. A celebrated Chemist (and one of the first manufacturers of Chloroform) has discovered that this fluid with other simple ingredients, will instantly cure the TOOTHACHE. After testing it in many cases it has never failed to give relief, there is no possible danger in using it, as it will not injure the gums and teeth a particle. All that is necessary in using these Drops is to saturate well a bit of cotton or lint, and place it in the cavity of the tooth. Relief will be immediate.

None genuine without the signature of Reed & Po[illegible] on the wrapper. Sold at No 19 Tremont Row Boston.

I was recommended to try Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I commenced when I had used about a week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present time. CONSUMPTION

STATEN ISLAND June 17th 1847

DEAR SIR—I take great pleasure in giving you my certificate. last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucous. Some days I raised a half pint of mucous streaked with blood. I have been under the treatment of a dozen physicians. I was recommended by Dr M[illegible] of Philadelphia to use a breathing tube. I purchased one, I only made use of it for one week. It was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed. It was difficult for persons to understand me. I saw Dr Vondersmith's Medicine recommended very strongly by a person whom he had cured. I sent for half a dozen bottles, I received great benefit [illegible] which induced me to purchase a dozen bottles. I took it according to the directions, and it cured me perfectly sound. TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life" should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body. not so far stimulating the system as to produce a subsequent relaxation —which is the case of most medicine taken for female weakness and disease

To Mr JULES HAUEL

Sir. Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to myself and the public generally, soon induce me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skilfully prepared and compounded. I am convinced of the great worth of [illegible] Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste— I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the use and purposes they are intended. Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unequalled and decidedly excellent being a fine and highly emollient composition—it does not smart or irritate the skin, while the Nymph Soap operates benefitly upon the pores of the skin, and cleanses it from all impurities. The Rose Tooth Paste, imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in their way inestimable

I have seen some of my friends who have tried your Vegetable Liquid Hair-Dye, its effect is really [illegible] It dyes the Hair in an [illegible] manner in a few minutes, and the color of the hair is really beautiful [illegible]

Besides their specific action upon diseases of the lungs and windpipe, the celebrated Heave Powders from their great alterative and restorative properties, are as effectual in horses as sarsaparilla proves to be in the human race for the removal of impurities of the blood and predisposition to disease. Patent Mill Wheels.

Lumbey's Patent

Two Vent Cast Iron Water Wheels

—FOR—

SAW MILLS,

Invented by T R. Lumbey of Cato N. Y.

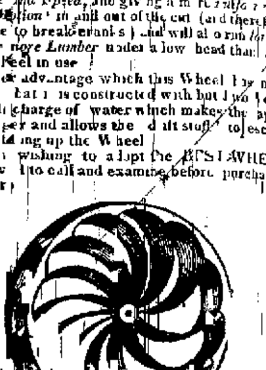
THE undersigned would invite the attention of the Public to the above named WHEELS which have been thoroughly tested in *Comparison* with all other popular

SAW MILL WHEELS

in use at the present time and they can confidently recommend them with the same head and quantity of water applied, as possessing and combining *more Strength and Speed,* and giving a more *uniform* and *Steady Motion* in and out of the cut (and therefore not liable to break cranks) and will also run *larger and Saw more Lumber* under a low head than any other Wheel in use

Another advantage which this Wheel has over others is that it is constructed with but two Vents for the discharge of water which makes the apertures larger and allows the drift stuff to escape without [illegible] up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere



We would also call the attention of Mill Owners

Valentine's Patent

Reversing Centrifugal Water Wheel

—FOR—

"UPRIGHTS SAWS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already [illegible] in use we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now in use

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD, Esq *Civil Engineer* Lowell Mass, who is well known as one of the most Scientific and experienced practical Engineers in this country

"This Wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending to around the Wheel that when the water arrives at the vents its pressure is so far expended that it falls very nearly inert from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume in which the water stands at full head, the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel which stands perfectly free in the column of water and by this arrangement all the friction on the step and bearing of the Wheel is avoided and so much of the power saved, which in the ordinary mode of operation is wholly lost

This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it providing the head rises in a freshet as fast as the back water. But a Wheel with the jets rightly gauged for a high head will not answer for a low one, and vice versa, for as the head increases, the width of the jets should be proportionally decreased so that the water may not issue to waste, and give the best effect to the Wheel.

In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless in case it is desirable to make repairs easily accessible when they are needed, costing much less in the outlay, is much more durable, and takes very much less room in a mill or shop— Simplicity of structure durability of parts convenience of application and excellence of power are the grand points of recommendation for this Wheel."

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine, with the other vegetable ingredients are combined, designed to render them more active, and consequently more immediately effective

The Dock, or rather species of it now ranks as a medicinal plant second to no one of the vegetable Kingdom. With the aid of distinguished chemists whom the proprietor [illegible] [illegible] of the compound he has succeeded in overcoming the difficulty of procuring the extract of the root or any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on, and least liable to decomposition is procured by subjecting the root to the action of the menstruum usually employed in extracting its virtues, for a long time, without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation
